Planning for a better Urban Future

WYNDHAM CITY

- Diverse community – geographically and demographically
- Almost half of Wyndham's residents born overseas
- More than half of households in Wyndham are families with children under 15 years.
- Low socio economic status in parallel to areas of high economic status

A black and white photograph showing the lower torsos and pregnant abdomens of two women. Several hands are gently touching and supporting their bellies. The woman on the left is wearing a patterned top, and the woman on the right is wearing a dark top with small white polka dots. The image has a soft, intimate feel, emphasizing the theme of pregnancy and family.

14 babies are born a day to
Wyndham families

5,110 babies born every year!

EMPLOYMENT & CONNECTION

- Highest commute times of greater Melbourne averaging 2.5 hours
- 20 mins from both Melbourne CBD and Avalon International Airport
- 7 out of 10 residents leave Wyndham for Employment
- Residents experience 10 – 12 hours out of the municipality a day
- Children in these families are raised by grandparents or institutions
- 1 in 10 young people are neither studying or working

Defining the Problem an Australia Wide Focus

- The skills of physical literacy will **enable people** to gain the **confidence and capability** to join in a variety of activities – enabling them to live **active, healthy and fulfilling lives**.
- A nation of **spectators** instead of participants
- **Sedentary lifestyles** put strain on virtually every system in the **body** – as well as our national **health** system.
- Today's **children cannot** run, throw, kick, catch or jump as well as previous generations
- Children **aren't learning** the fundamental skills to be active children - or grow into active adults.
- There's **freedom**, health and happiness in movement, and Sport Australia is committed to getting Australians moving again.
- Rebuilding our nation's physical literacy is a way for Australians to **regain their freedom to move**.

The Wyndham Sports Strategy 2045

Establish an integrated and sustainable sports facility network across the municipality which will benefit the **physical, mental and social wellness** of the whole community now and in 2045.

The scope of the Sports Strategy

Best Value

Provide a legacy of facilities that are accessible, equitable and responsive to the Wyndham community's wellbeing, environment and economy

Maximise Participation

Enable Council to address the access needs of growth activities and diversity of sporting opportunities in our locally diverse and globally connected community

Social Impact

Ensure sports infrastructure inclusively connects residents and facilitates the development of community capacity and social leadership

Sustainable Partnerships

Develop strong partnerships between Council, the community and industry regarding the capital development of facilities

To achieve a Physically Literate community we needed to review the whole system of sport and recreation

COMMUNITY ENGAGEMENT

1201 responses to independent sample survey

25 Local Service providers

31 Community Sports Clubs

8 Community workshops

17 State Industry Meetings

179 Facebook Comments

64,807 Facebook users reached through feed

Investment

ACTIVE VILLAGE

The Active Village principles and priorities of the strategy inform two frameworks

- Sports Selection Framework
- Sports Facility Framework

The Sports Selection Framework will...

Select sports and recreation activities which demand at least one facility in Wyndham

The demand modelled used is Demand Based Planning Model for Active Open Space Tony Veal, University of Technology Sydney

The Active
Village will

Locates sport and
recreation facilities across
the city in an integrated
network to ensure the
people are connected to
activity and place

The Sports Facility Network

The network is presented within the sports facility classifications:

- Urban dry land outdoor sports
- Urban dry land indoor sports
- Aquatic facility sports
- Aquatic outdoor sports
- Hard to locate sports
- Natural setting sports

The Active Village Model ensures the design of the whole network, each region and each facility are designed with the principles of the strategy.

Hoppers Crossing

Truganina

Investigate multiuse options in precinct including Flying Disc

Joint Use Agreement with School

Skate and Scooter

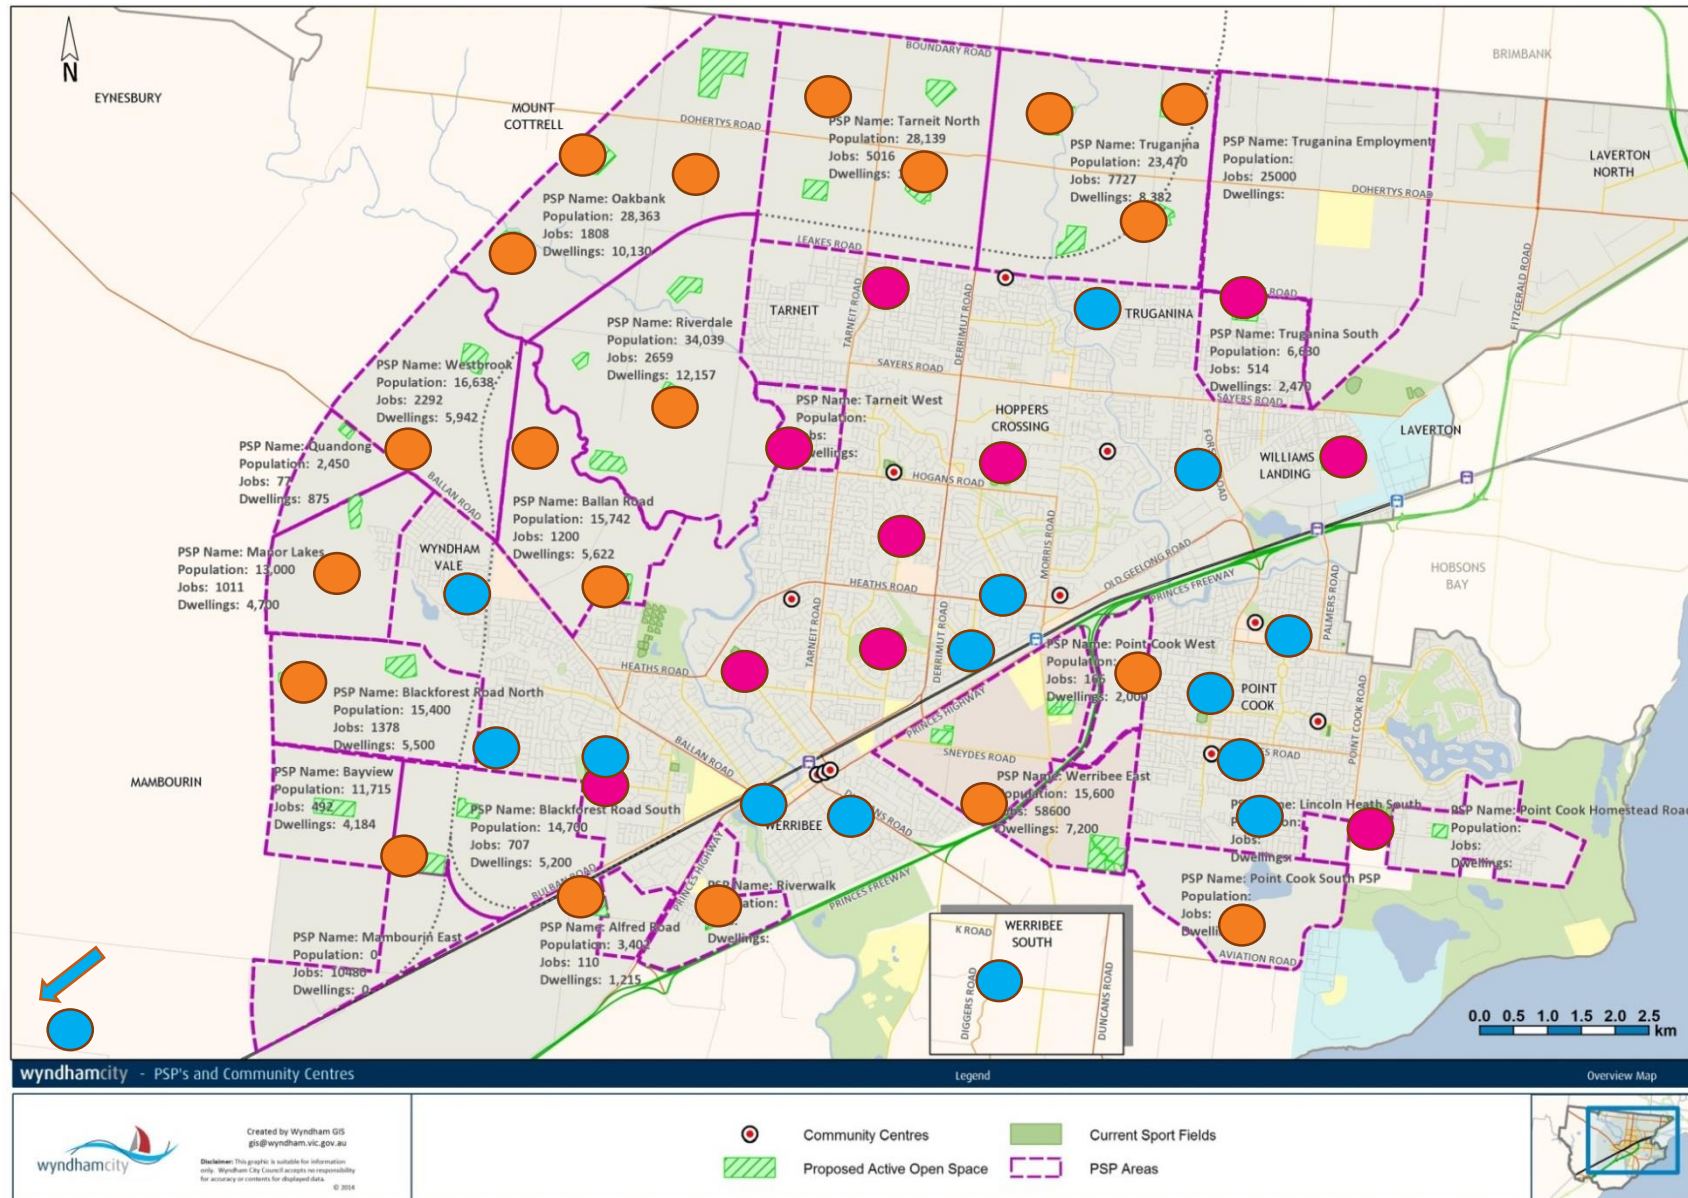

Soccer x 3 (1 synthetic)
Cricket x 1
Skate x 1

An example of demand for sport: Cricket

- Cricket is participated in Wyndham by 3.5% of the population
- This means Wyndham requires 1 oval per 6,000 (VEAL'S MODEL)
- In a population of 450,000 we need 75 ovals or 37.5 cricket facilities
- Currently we have a total of 28 reserves with 37 cricket ovals
- Based on demand we will need to build an additional 38 cricket ovals
- We have at least 94 of 168 sports which demand at least one surface in Wyndham
- Therefore what goes where is important!

A example of demand for cricket:

Active Village Public Amenity

District Sport – Soccer/ Cricket

Municipal Sport – Softball

Multi Use Activity Spaces

Court Spaces – multi use

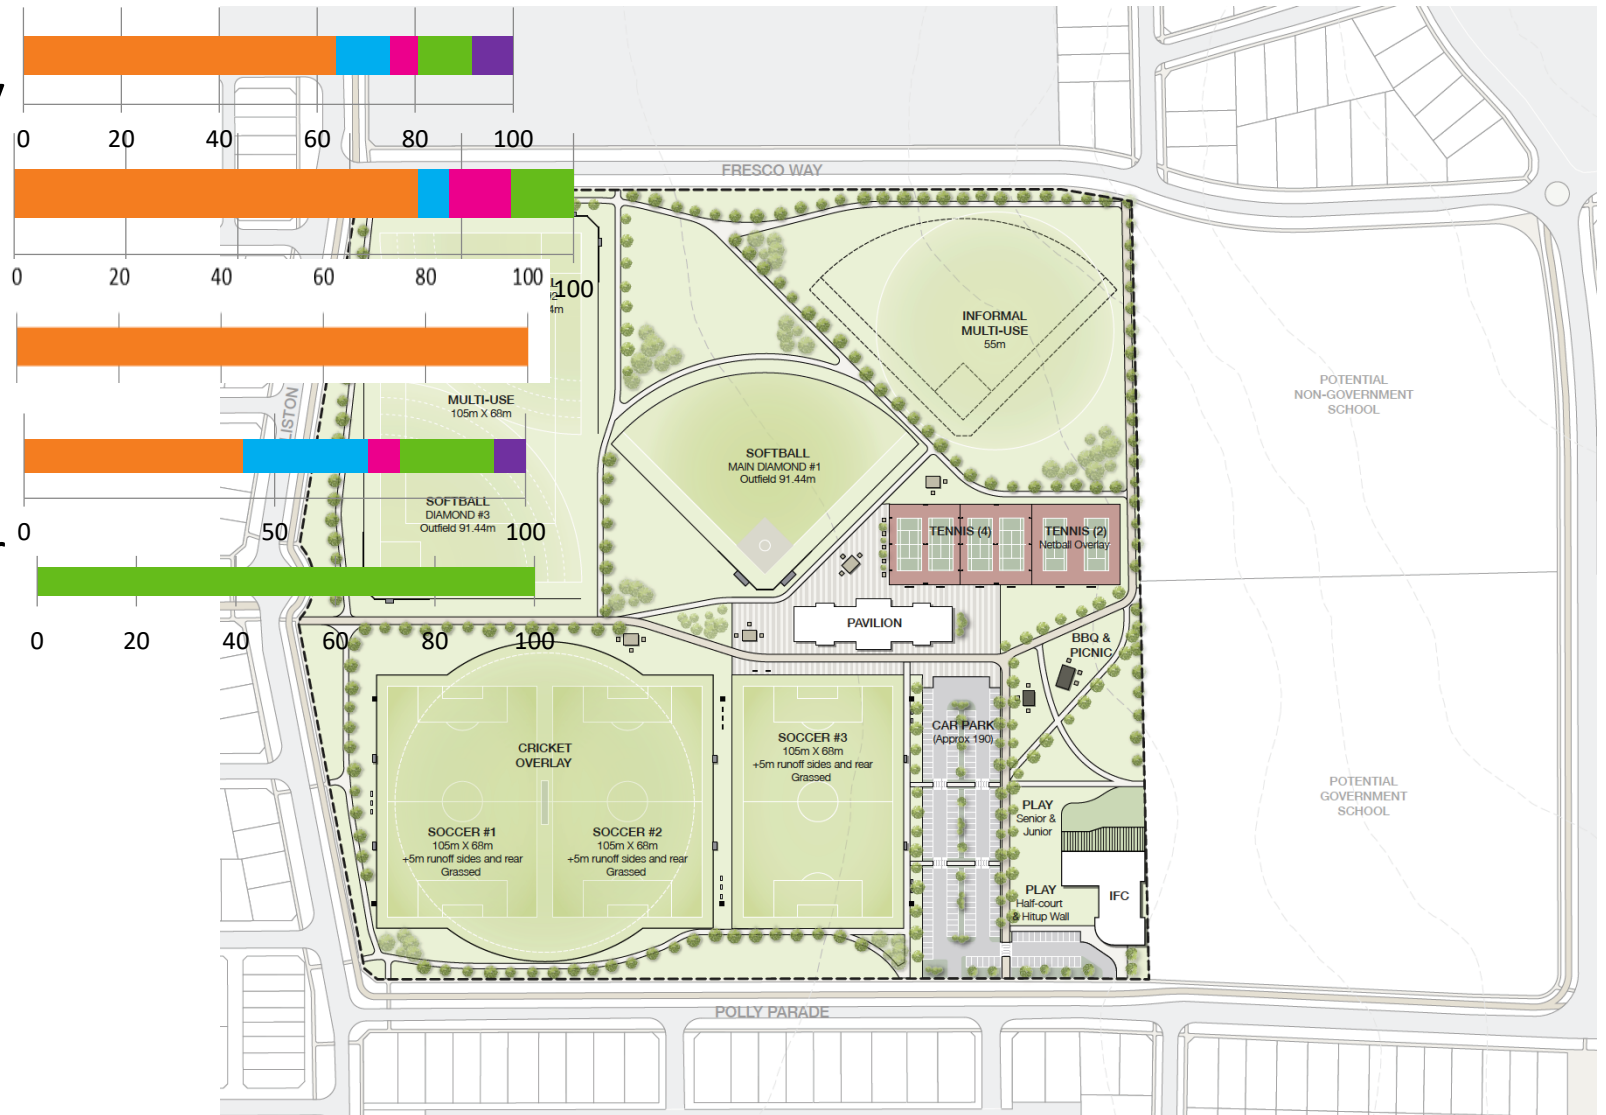

Pavilion – Community Space for
programming
